

Name: _____

April 8	5-a-day	Higher
Work out 36°	Work out $49^{\frac{1}{2}}$	
A coin is flipped three times. What is the probability of getting three tails?		
 <p>A diagram of a sector of a circle. The two radii are drawn as straight lines, and the arc is a curved line. The radius on the left is labeled "6cm" in blue. The angle at the vertex between the two radii is labeled "30°" in blue.</p>	Calculate the perimeter.	
Solve $\frac{x-1}{1} - \frac{6}{x-1} = 1$		
A sphere has radius 3cm. What is its volume?
