

June 21	5-a-day	Higher
Write 73000 in standard form		
£400 is invested. The investment pays 10% every year. How much money will there be after 2 years?		
Solve $x^2 + 10x + 21 = 0$		
Solve: $x + 2y = 3$ $x^2 + 3xy = 10$		
Simplify $\sqrt{80}$
