March 27th	5-a-day	Higher
 <p>5cm</p>		Calculate the area of this quarter circle
		The median score was 85. The lowest quartile was 78 and lowest score was 71.  The range is 21 and interquartile range 10.  Draw the box plot
Simplify $\frac{4}{2v} + \frac{5}{3v}$		
What is the value of n $5^n = \frac{1}{125}$		
A man walks y miles North and then (y + 8) miles west.  He is now 12 miles from the starting point.		Show y satisfies $y^2 + 8y - 40 = 0$
