

Name: _____

March 28th

5-a-day

Foundation

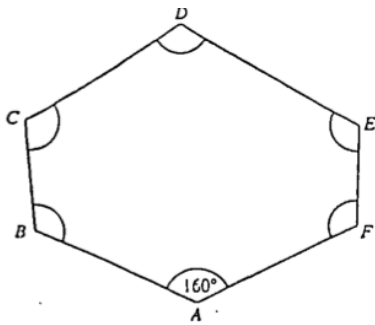

Calculate

$$\frac{2}{5} \div \frac{9}{10}$$

Solve

$$10x + 11 = 23$$

$$3x + 17 = 21 - 5x$$

Angle BAF is 160 degrees and all other angles are equal.

What size are they?

Rotate the shape 180 degrees about the point x
