

Name: \_\_\_\_\_

March 29th	5-a-day	Foundation								
What is the remainder when 365 is divided by 7?										
Martin goes to Bristol every 4 days Ollie goes every 5 days. Seb goes every 12 days.  If they all went to Bristol today, how many days later will they all go on the same day?										
$y = 2x + a$  Make $x$ the subject										
Complete this table for $y = 2x + 1$ <table border="1" data-bbox="177 1391 740 1570"><tr><td><math>x</math></td><td>0</td><td>1</td><td>2</td></tr><tr><td><math>y</math></td><td></td><td></td><td></td></tr></table>	$x$	0	1	2	$y$					
$x$	0	1	2							
$y$										
Draw $y = 2x + 1$
