

Corbett's Conundrums

31st August

Consider the numbers 10, 20, 30, 40, 50, 60, 70, 80, 90, 100, 110.

Divide each number by 11.

Add the quotient to the remainder in each case.

What do you notice? Can you account for it?

Repeat by dividing by 13.

Also repeat by dividing by 9.
