

Corbett's Conundrums

22nd March

There are red, green and bad apples, which are in baskets.

Each type are exactly the same weight.

3 green, 2 red and 1 bad weighs 390g.

2 green, 3 red and 1 bad weighs 340g.

1 green, 2 red and 3 bad weighs 260g.

What does a basket of each type weigh?
