

18th April

Corbettmaths

What change should you get from £5 if you bought 3 packets of biscuits at 62p each?

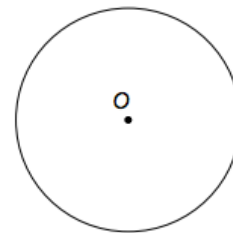

The temperature was 1°C . Later it was -7°C

How much had the temperature fallen?

The temperature then rose by 3°C

What was the final temperature?

Draw a diameter on the circle.

$$\square \times \square{-7} = \square{42}$$

$$\square{-1} \times \square = \square{2}$$

Jessica has 300 pencils.
15% of the pencils need sharpened.

Work out how many pencils need sharpened.
