

19th December

Corbettmaths

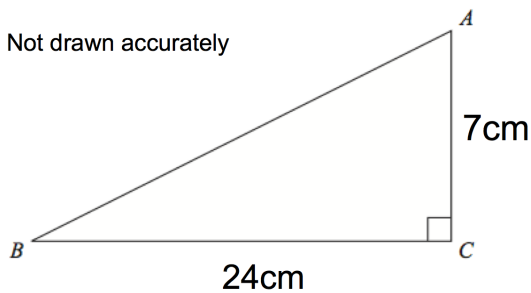

Solve the equation

$$20 - 4x = 2x + 8$$

Work out

$$6^{-2}$$

Not drawn accurately

Work out the length of AB

Exchange Rates

\$ £ €

£1 : \$1.55

£1 : €1.24

*Commission Charged

Terry goes to the Post Office to exchange money.

Terry changes \$651 and €161.20 into pounds sterling.

The Post Office deducts their commission and gives Terry £528.

What is the percentage commission?
