23rd February

Corbettmaths

Work out	Calculate
$5^2 + 2^3$	3^4

Write $\dfrac{12}{25}$ as a percentage.	Write 72% as a fraction. Give your answer in its simplest form.

Estimate 2.9 x 401	

Southville	09 18	10 38	12 05	A bus leaves Southville at 10 38
Leek	09 28	10 48	-------	
Milton	09 41	11 01	-------	At what time should the bus arrive at
Newtown	09 49	11 09	-------	Newtown?
Red Island	09 55	11 15	12 36	
Sandville	10 13	11 33	-------	
Bakerstown	10 31	11 51	13 00	

How long will the journey take?	Sally wants to travel from Southville to Bakerstown. The 12 05 is an 'express' bus. How many minutes shorter is the journey if she takes the 'express bus?'
