Simplify $(\sqrt{5})^2$

Simplify $\sqrt{10} \times \sqrt{7} \times \sqrt{3}$

Find x

Find y

Find z

Mr Jones is an estate agent on the Isle of Man.

Median	£375,000
Range	£235,000
Interquartile Range	£590,000

He has created this table to show information about the prices of houses he has sold.

Explain how you know he has made a mistake.

Find x
