

28th March

Corbettmaths

Anna, Beth and Carla share money in the ratio 2:3:5.

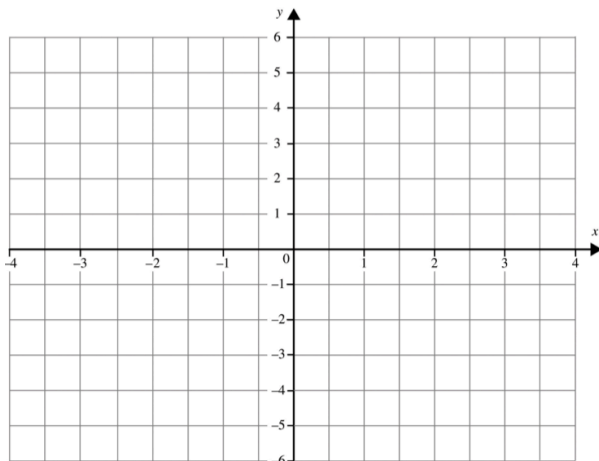

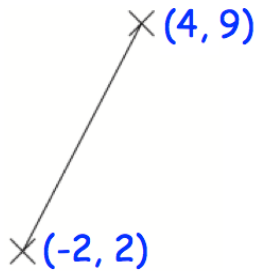

Carla receives £75.

How much does Beth receive?

Simplify

$$\frac{7^2 \times 7^3}{7}$$

Find the midpoint of (-2, 2) and (4, 9)

Complete the table for the graph
 $y = 4 - x^2$

x	-3	-2	-1	0	1	2
y	-5		3	4	3	

Draw the graph on the grid.
