

4th May		 Corbettmaths	
Simplify $6b - 4b$	Simplify $2b \times 3c$		
A cuboid has sides length 3cm, 4cm and 5cm. What is its volume?	What is its surface area?		
 Calculate the volume			
Increase £54 by 17%		$c^{10} \div c^5$	c^{16}
		$c^7 \times c^3$	c^5
Match each of the expressions		$(c^8)^2$	c^2
		$\frac{c^6}{c^4}$	c^{10}
