

9th May

Corbettmaths

A solid cube of side length 6cm, is made from a material with density 2.7g/cm^3

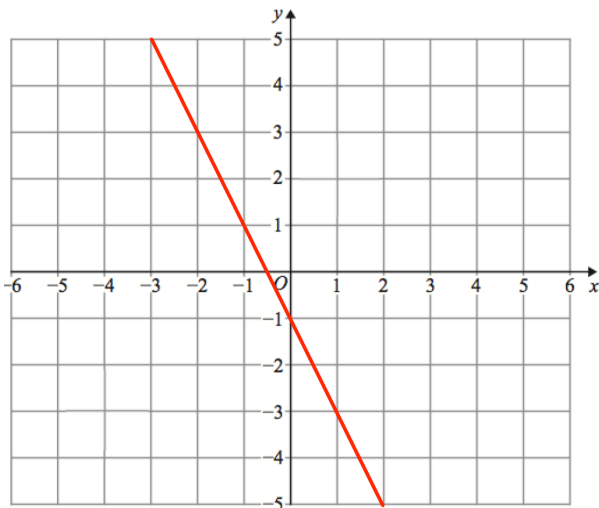

Calculate the mass of the cube.

Factorise

$$16 - y^2$$

Factorise

$$y^2 + 5y - 14$$

Work out the equation of line L

In a class, there are 21 students. Of these students, 9 plays football, 15 play cricket and 8 play both football and cricket. A pupil is picked at random. Find the probability that the pupil does not play football or cricket.
