

23rd November

Corbettmaths

A student is picked at random.

What is the probability that they got a grade A?

Alan got 19 out of 32 correct.
An A was 80%, a B was 70%, a C was 60%, a D was 50%.
What grade did Alan get?

This formula can be used to convert between Celsius and Fahrenheit:

$$F = 1.8C + 32$$

Make C the subject

The bearing of A from B is 315° , find the bearing of B from A.

State the condition why the two triangles are congruent.
