Find w

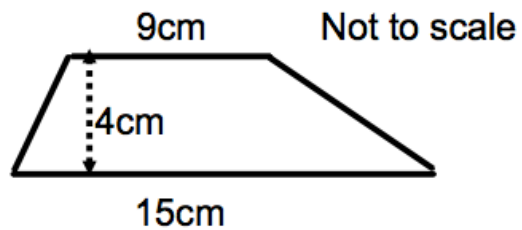

Here is a list of quadrilaterals.

- kite rectangle rhombus
 square parallelogram

All four sides are the same length.
 There are no right angles.

For the following description, choose the correct name from the list.

Calculate the area of the trapezium.

Write a list of all the possible combinations of the two counters that Rob can take.

Rob takes a counter at random from bag 1 and a counter at random from bag 2.

Is time taken to read a book discrete or continuous data?

Tick a box.

Discrete Continuous

Give a reason for your answer.
