

**31st October**

Corbettmaths

A town was founded in 1675.

How many years old is the town?

What is the value of the 6 in 1675.

Measure the length of the line AB.

Mark with an X, the point C which is the midpoint of AB.

How many lines of symmetry does the sign have?

Write down the number that is halfway between 1.6 and 1.7

Foxtown			
52	Sandcliff		
70	32	Red Island	
31	14	28	Donhampton

The table shows the distances in miles by road between some towns.

Write down the distance between Sandcliff and Donhampton
