Measure the angle shown

127°

A school shop bought a box of pens for £7

There were 100 pens in the box.

How much did one pen cost?

$$700 \div 100$$

7p

The school shop sells each pen for 40p each.

How much profit did the school shop make?

$$40 \times 100 = 4000p$$

$$\begin{array}{r} £40 - £7 = \underline{\underline{£33}} \end{array}$$
