Tilly the dog barks every 9 seconds.
Billy the dog barks every 12 seconds.
They both bark at the same time.

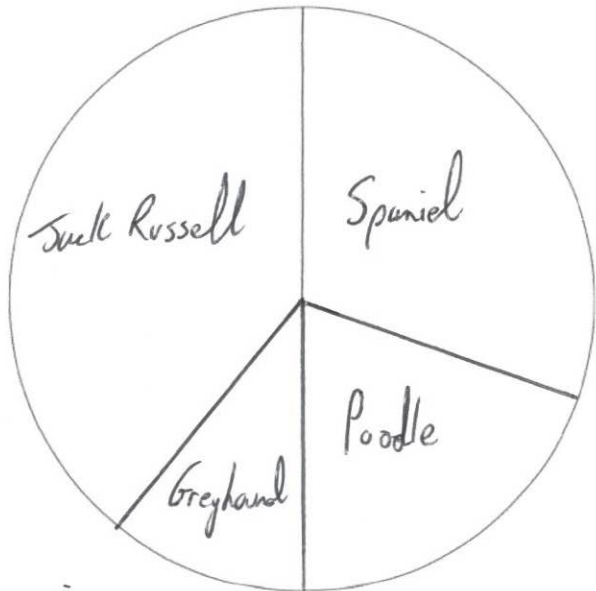

9 18 27 36
12 24 36

After how many seconds will they next bark at the same time?

36 seconds

The table gives information about the dogs in a village

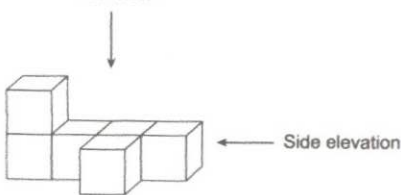

Breed	Frequency		
Spaniel	11	$\times 10$	110°
Poodle	7	$\times 10$	70°
Greyhound	4	$\times 10$	40°
Jack Russell	14	$\times 10$	140°
36			

Calculate the size of each angle and then draw an accurate pie chart.

$$360 \div 36 = 10$$
