

21st April		 Corbettmaths				
Simplify $3 \times 5w$		Simplify $3w \times 5a$				
Simplify $a + a + a + a + a$		Simplify $4m + 6p - 2m + 4p$				
Write down the next term in this sequence.	Write down the next term in this sequence.					
2 6 18 54 	a $2a + 1$ $3a + 2$ $4a + 3$					
A four-sided spinner has the numbers 1, 3, 5 and 7 on it. A dice has the numbers 2, 4, 6, 8, 10 and 12 written on it.						
In a game they are spun/rolled and their scores are added together.						
Complete this table to show all the outcomes						
	2	4	6	8	10	12
+						
1						
3						
5						
7						
What is the probability that the sum of the two scores is less than 14?
