5-a-day

Foundation Plus

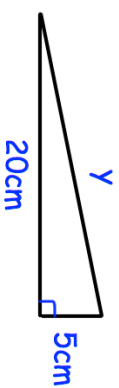

13th February

Mrs Griffiths buys a car for £1400.  
She sells it for £1850.

Work out her percentage profit.

Find  $y$

Find the circumference of a circle with radius 4cm.

Find the radius of a circle with circumference 2m.

Line 1 has equation  $y = 5x + 2$

Write down the equation of a line parallel to Line 1.

Simplify

$$\frac{d^{1/5} \times d^{2/3}}{d^{3/5}}$$
