5-a-day

Foundation Plus

7th February		Corbettmaths	
$4\frac{1}{4} \times 2\frac{3}{5}$			
Age	Frequency	Calculate an estimate of the mean.	
$0 < A \leq 10$	5		
$10 < A \leq 20$	9		
$20 < A \leq 40$	6		
The average distance of the sun from Earth is $1.5 \times 10^8$ km Write this as an ordinary number.			
A line has equation $y = 5x + 1$ Write down the gradient of the line			
James bought a house. In the first year the value of the house decreased by 10%. In the second year the value of the house increased by 10%.			Is the house worth more, less, or the same as what James paid for it?
