

25th February	Corbettmaths 
Simplify $(5xy^2)^3$	
	Find the size of BCD.
Simplify $\sqrt{27}$	Simplify $\sqrt{300}$
<p>The lightest female rugby player is 51 kg. The lower quartile is 60kg. The median is 71kg. The range is 32kg and interquartile range is 14kg.</p>	 <p>Draw a box plot to show this information</p>
Factorise $3y^2 + 10y - 8$
