

11th February	Corbettmaths 
Evaluate $64^{-\frac{2}{3}}$	
Sketch the graph of $y = \cos x$ for $0 \leq x \leq 360$.	
Simplify $\sqrt{75} + \sqrt{48}$	
<p>The cuboid is full of liquid. Some of the liquid is poured into the cylinder. The height, h, of liquid in both containers is the same.</p> 	Work out h .
