

22nd February Write 0.0282828... as a simplified fraction  Corbettmaths	
$\frac{10 - \sqrt{32}}{\sqrt{2}} = a + b\sqrt{2}$ where a and b are integers. Find the values of a and b. Solve the inequality $x^2 + 2x - 35 > 0$	Work out an estimate of the median Work out an estimate of the lower quartile
 <p>Shown are the weights of some athletes</p>
