

29th February	 Corbettmaths
Given $f(x) = \frac{8x - 1}{5}$ find $f(3)$	
The radius of a sphere is 4cm. The radius of the base of a cone is also 4cm. The volume of the sphere is twice the volume of the cone.	Find the height of the cone.
Calculate the size of angle DCE	
Express $3x^2 - 18x + 16$ in the form $a(x - b)^2 + c$	
	Calculate the area of the regular hexagon
