

Name: _____

5-a-day

Foundation Plus

 Corbettmaths	
9th June	
Solve $(y + 3)(y + 1) = 0$	
<p>The distance from Swindon to a village is 40 miles. Vicky drives from the village to Swindon at 60 mph. Charlie drives from the village to Swindon at 50mph.</p>	<p>Work out how much longer the journey takes Charlie. Give your answer in minutes.</p>
Write 725.5% as a simplified fraction.	
<p>Solve</p> $5 < 2x + 1 < 17$	
<p>Which two lines are parallel?</p> $y = 2x + 1$ $y = \frac{1}{2}x - 4$ $y = x + 1$ $y = -\frac{1}{2}x - 3$ $y = 10 + x$
