

11th June		Corbettmaths
<p>Here is a velocity-time graph of a particle for 24 seconds</p>	<p>After how many seconds was the acceleration zero?</p>	
<p>Work out an estimate of the distance travelled in the first 12 seconds?</p>		
<p>Here is a velocity-time graph of a particle for 24 seconds</p>		
<p>Find $f(x) = \frac{3x}{5} + 1$</p> <p>Find $f^{-1}(350)$</p>		
<p>ACD is a triangle. B is a point on AC Work out the area of triangle ABD. Give your answer correct to 3 significant figures.</p>
