

20th June			
$g(x) = 3 - x$ $h(x) = x^3$			
Solve $gh(x) = 30$			
ABCDEF GH is a cuboid		Calculate the length of FH	
		Calculate the size of angle AGE	
Sketch the graph of $y = 2^x$			
Make c the subject of $\frac{5}{a} + \frac{b}{2} - \frac{7}{c} = 0$
