

Name: _____

5-a-day

Higher

25th June		Corbettmaths
Simplify $\sqrt{63}$		
Yvonne truncates a number, y to 1 decimal place. Her result is 2.7 Write down the error interval for y		
Factorise $3y^2 - 10y + 3$		
Find where the lines $y = 2x - 5$ and $y = x$ cross.		
A bag contains 6 yellow sweets and 6 blue sweets. A sweet is taken out at random, it is replaced, and another is taken out. Find the probability that at least one sweet is blue.
