

31st March		Corbettmaths													
Circle the values which are rational	$40$ $\sqrt{64}$ $\sqrt{3}$ $1000.5$ $\pi$														
Show the region which satisfies $-2 < x < 1$ $y \geq -1$ $y < x + 1$															
		Calculate an estimate of the mean													
<table border="1"> <thead> <tr> <th>Weight (kg)</th> <th>Frequency</th> </tr> </thead> <tbody> <tr> <td><math>0 &lt; w \leq 50</math></td> <td>4</td> </tr> <tr> <td><math>50 &lt; w \leq 100</math></td> <td>12</td> </tr> <tr> <td><math>100 &lt; w \leq 150</math></td> <td>40</td> </tr> <tr> <td><math>150 &lt; w \leq 200</math></td> <td>48</td> </tr> <tr> <td><math>200 &lt; w \leq 250</math></td> <td>16</td> </tr> </tbody> </table>	Weight (kg)	Frequency	$0 < w \leq 50$	4	$50 < w \leq 100$	12	$100 < w \leq 150$	40	$150 < w \leq 200$	48	$200 < w \leq 250$	16			
Weight (kg)	Frequency														
$0 < w \leq 50$	4														
$50 < w \leq 100$	12														
$100 < w \leq 150$	40														
$150 < w \leq 200$	48														
$200 < w \leq 250$	16														
<p>10cm   15cm</p> <p>The small vase holds 700ml of water. How much does the larger vase hold?</p>
