	Find x									
<p>Derek drives to a football match. He drives the first 10 miles in 20 minutes. He then drives at 55mph for 30 minutes.</p> <p>The information below was found in his car manual</p> <table border="1"> <thead> <tr> <th>Average Speed</th> <th>Miles per gallon</th> </tr> </thead> <tbody> <tr> <td>Less than 50 mph</td> <td>55</td> </tr> <tr> <td>50 to 60 miles per hour</td> <td>50</td> </tr> <tr> <td>More than 60 mph</td> <td>45</td> </tr> </tbody> </table>	Average Speed	Miles per gallon	Less than 50 mph	55	50 to 60 miles per hour	50	More than 60 mph	45	<p>Work out how much petrol he used in total</p> <p>He completed the return journey at 70mph. How much petrol did he used in the return journey?</p>	
Average Speed	Miles per gallon									
Less than 50 mph	55									
50 to 60 miles per hour	50									
More than 60 mph	45									
<p>Convert 2.4m^2 into mm^2</p> <p>Give your answer in standard form.</p>										
<p>A and B are positive numbers. A is inversely proportional to B. When $A = 4$, $B = 100$.</p> <p>Find the value of A when $B = A$.</p>
