

<p><b>6th May</b></p> <p>A spinner is spun 600 times. The relative frequencies of each colour are:</p> <p>White 0.45 Red 0.35 Green x</p>	<p>How many more times did the spinner land on white than green?</p>
<p>The first flight between Belfast and New York is 40% full. Each month the number of passengers increases by 3%. How many months will it be before the flight is full?</p>	
 <p>Find the length of AC.</p>	
<p>Find angle BAC</p>	<p>Find the area of the triangle</p>
<p>Simplify</p> $\frac{3x^2 + 7x + 4}{x^2 + 3x + 2}$
