

9th November		Corbettmaths																			
<table border="1"> <thead> <tr> <th>Number of tickets won</th> <th>Frequency</th> </tr> </thead> <tbody> <tr><td>0</td><td>2</td></tr> <tr><td>1</td><td>11</td></tr> <tr><td>2</td><td>28</td></tr> <tr><td>3</td><td>18</td></tr> <tr><td>4</td><td>11</td></tr> <tr><td>5</td><td>15</td></tr> <tr><td>6</td><td>10</td></tr> <tr><td>7</td><td>2</td></tr> <tr><td>8</td><td>3</td></tr> </tbody> </table>	Number of tickets won	Frequency	0	2	1	11	2	28	3	18	4	11	5	15	6	10	7	2	8	3	<p>Lily visits an arcade while on holiday in Weston-Super-Mare. She plays 100 games and wins tickets that she can exchange for prizes. The table shows the results.</p>
Number of tickets won	Frequency																				
0	2																				
1	11																				
2	28																				
3	18																				
4	11																				
5	15																				
6	10																				
7	2																				
8	3																				
	Work out the total of tickets won.																				
Factorise $x^2 + 2x - 8$	Factorise $x^2 - 81$																				
<p>Represent the inequality <math>x \leq 4</math> on this number line.</p>																					
	Calculate the volume of the cone.
