

17th November		Corbettmaths
 <p>5cm 4cm</p>	Write down the value of $\sin x$ Give your answer as fraction.	
Simplify $\frac{3}{w} \times \frac{x}{4} \times \frac{y}{w}$		
Find the area of the parallelogram. 		
Circle the values which are irrational	4^0 $\sqrt{64}$ $\sqrt{3}$ 100.5 π	
Solve $5^x = 40$. Give your answer to 1 decimal place.
