

<b>19th October</b> Corbettmaths	
A circle has equation $x^2 + y^2 = 25$ Find the area of the circle	
	Sketch $y = 3^x$
	Find angle BAC
	Shown is the curve with equation $y = x^2 + ax + b$ Find a and b
	Solve the simultaneous equations $x^2 + 3xy = 10$ $x + 2y = 3$
