

<b>9th August</b>		Corbettmaths 
Calculate the perimeter of this quarter circle	 <p>5cm</p>	
The mean of four numbers is 10. Three of the numbers are 9, 11 and 7. Work out the fourth number.		
<b>Input</b> → $\boxed{\times \frac{3}{4}}$ → $\boxed{\div \frac{2}{3}}$ → <b>Output</b>		
Find the output if the input is 5		
Factorise $x^2 + 10x + 9$		
Match each of the following	$4x + y$ _____ <b>Expression</b> $x + x + x = 3x$ <b>Equation</b> $5x - 2 = 28$ <b>Formula</b> $V = lwh$ <b>Identity</b>
