<b>11th August</b>	
Simplify $a + a + a$	Simplify $a \times a$
Two angles in a triangle are 50 degrees and 36 degrees. Calculate the third	
$20\% \text{ of } 30 = \underline{\quad}$ $50\% \text{ of } \underline{\quad} = 30$	
p and q are odd numbers	Is pq
Is p + q <input type="checkbox"/> odd <input type="checkbox"/> even <input type="checkbox"/> either	<input type="checkbox"/> odd <input type="checkbox"/> even <input type="checkbox"/> either
Make w the subject $Y = 3w - d$
