Carol claims "when you square a number, the answer is always bigger than the number you started with."  Is she correct? Explain your answer.	
The area of a triangle is $30\text{cm}^2$  Find $y$	
What is the equation of this line?  	What is the equation of this line?  
$\begin{array}{r} 49.1 \times 8.08 \\ 3.98 \end{array}$	Work out an estimate
	Find $y$
