

25th August	Corbettmaths 
Find the exact length of the side labelled w	Corbettmaths 
	
$f(x) = \frac{x+1}{3}$ <p>Draw</p> $y = f^{-1}(x)$	<p>The Venn diagram shows information about the languages studied by 50 students.</p> <p>£ = 50 students F = studies French G = studies German</p>
Find how many students study both languages	A student is chosen at random. They study German. Work out the probability they also study French
