

Name: _____

5-a-day

Foundation Plus

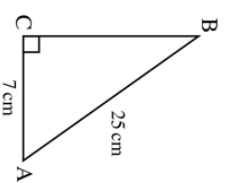

25th July

Solve $2(5 - 2x) = 5 + 6x$

Write 0.0000434 in standard form

Write 9800000 in standard form

Calculate the length of BC

The Earth and the Sun are 150000000km apart.

Convert 150000000km into metres.
Write the answer in standard form.

Write this number in standard form.

Solve these simultaneous equations

$$\begin{aligned} 2x + 5y &= 4 \\ 3x + 4y &= 13 \end{aligned}$$
