

18th July		Corbettmaths 
 <p>Triangles ABC and DEF are similar.</p>		
Find the length of EF	Find the size of angle EDF	
What percentage of a distribution lies between the highest value and the upper quartile?	How is the interquartile range calculated?	
The cost of a trip is directly proportional to the square root of the distance.	Find a formula connecting the cost, C, and the distance, d.	
The cost is £600 when the distance is 900 miles.		
Find the cost of a 400 mile trip.
