

Name: _____

5-a-day

Numeracy

4th July

Work out $638 + 873$

1200 - 484

Corbettmaths

 $546 \div 3$

Work out

 $\frac{3}{8}$ of 48Gavin went on a journey in his car.
Shown is the mileage on his car.

Before the journey

8	2	1	1	8
---	---	---	---	---

How far did he travel?

After the journey

8	2	9	3	1
---	---	---	---	---

Simplify fully

$$\frac{21}{24}$$

Claire works in Dundee.
She lives 23 miles away.
Claire works Monday to Friday.
Claire drives to work and back each day.

How many miles does Claire drive each week?
