

Name: _____

5-a-day

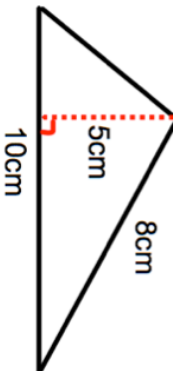

Foundation

11th November If $150 \times 34 = 5100$ Use that information to work out: 15×34	Corbettmaths 300×34 1.5×3.4
Each unit of gas costs 20p How much was spent on gas between January and June? meter reading Jan 2350 June 2413	
Simplify $a \times a \times a \times a \times a$	Simplify $6a + 4a - a$
	Find the area of the triangle.
$\begin{array}{r} 13.2 + 8.9 \\ \underline{2.32} \\ \end{array}$ Write down your full calculator display.	Write your answer to 2 significant figures.
