

4th August

Corbettm@ths

Jenny has 20 sweets.

 $\frac{1}{4}$ of the sweets are blue.

How many sweets are blue? 5

$$20 \div 4 = 5$$

15 26 35 37 40 54 60 72

From the list write down:
Two numbers with a sum of 50

$$\begin{array}{r} 35 + 15 = 50 \\ \hline \end{array}$$

Two numbers with a difference of 32

$$\begin{array}{r} 72 - 40 = 32 \\ \hline \end{array}$$

Four tickets for a trip cost a total of £172.

Work out the cost of one ticket.

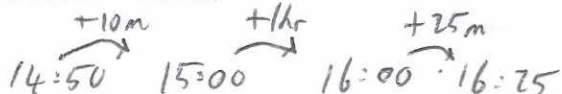

$$\begin{array}{r} 043 \\ 4 \overline{)172} \end{array}$$

£43

A film is shown in a cinema.

START 14:50

FINISH 16:25

How long does the film last?

1 hr 35 min

Beach
450mHotel
200m

Michael sees this sign while walking

How far is it from the beach to the hotel?

$$450 + 200 = 650m$$
