

6th December

Corbettm@ths

Harriet thinks of a positive number.

She squares it and then adds 19.  
Her answer is 100.  $100 - 19 = 81$

$$\sqrt{81} = 9$$

What was her original number?

$$9^2 = 81$$

$$81 + 19 = 100$$

9

**4 ÷ 10**

0.4

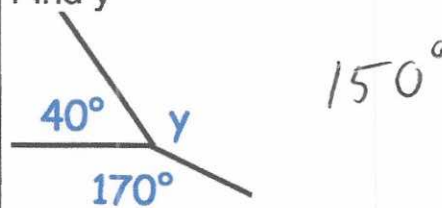

**18 ÷ 1000**

0.018
