Video 319

1. Below are 12 cards from a game.

(a) Complete this two-way table.

	Red	Green
Square		
Circle		

(2)

(b) One card is picked at random.
What is the probability it is a green circle?

.....
(1)

2. 80 students visited the library over three days.
The two-way table shows some information about these students.

	Monday	Tuesday	Wednesday	Total
Year 7			13	38
Year 8	14			
Total		33	26	80

- (a) Complete the two-way table.

(3)

One of these students is picked at random to win a prize.

- (b) Write down the probability that the student is in Year 7.

.....
(1)

- (c) Write down the probability that the student visited the library on Tuesday.

.....
(1)

3. The two-way table shows information about the students in a class.

		Hair colour		
		Brown	Blonde	Red
Glasses	Yes	3	6	3
	No	5	4	1

(a) Find the total number of students in the class.

.....
(1)

(b) A student is chosen at random from the class.
Find the probability that the student

(i) does not wear glasses

.....
(1)

(ii) has blonde hair

.....
(1)

(iii) wear glasses **or** has brown hair

.....
(1)

4. A cinema records some information about the visitors they have one weekend.

Day	Adults	Children	Total
Saturday		115	212
Sunday			
Total	143		360

Fill in all the missing values

(3)

-
5. Aminah runs a market stall.
The table below shows information about what items she has in stock.

	T-shirts	Jumpers	Coats	Total
Small	2	36	28	
Medium		0	1	10
Large		51		
Total			44	200

Complete the two-way table.

(3)

6. 90 people sit their driving tests over one week.

	Under 20 driving lessons	20 or over driving lessons	total
Pass		21	30
Fail	45		
total			90

(a) Complete the two-way table.

(2)

(b) How many people who had 20 or over driving lessons failed their driving test?

.....
(1)

(c) What fraction of people failed their driving test?
Give your fraction in its simplest form.

.....
(2)

Alfie says “having 20 or over driving lessons helps a person pass their driving test.”

(d) Explain why Alfie is correct.

.....
.....
.....
(2)

7. The two-way table gives some information about the football teams 50 students support.

	Rovers	City	United	Total
Year 7	11	12	3	
Year 9			7	
Total		20		50

Complete the two-way table.

(3)

8. The two-way table shows the grades students in Year 10 received in their exams.

		Physics			
		A	B	C	D
Maths	A	7	6	1	1
	B	3	5	3	0
	C	4	2	6	3
	D	0	0	1	0

- (a) How many students are in Year 10?

.....
(2)

- (b) How many students received a B in maths?

.....
(2)

- (c) How many students received the same grade in maths and physics?

.....
(2)

- (d) How many students received a higher grade in physics than maths?

.....
(2)

9. 150 students in Years 10 and 11 visit a school canteen.

Some students have packed lunches.

Some students have a cooked lunch.

56 out of the 89 students who have packed lunch are in Year 10.

There are 72 Year 11 students.

Work out how many Year 10 students have a cooked lunch.

.....
(3)

10. 100 people study one language at a college.

Some people study French.

Some people study Spanish.

The rest of the people study German.

54 of the people in Year 10 and the rest are in Year 11.

20 of the 29 people who study Spanish in Year 11.

31 people study German.

15 Year 11 students study French.

Work out the number of Year 10's who study German.

.....
(4)

11. On a particular day, 98 people visit a leisure centre.

Some are going to the gym.
Some are going to play tennis.
Some are going to play badminton.
The rest are going swimming.

51 of the people are adults.
21 out of the 40 going to the gym are adults.
19 adults and 7 children are going swimming.
7 out of the 20 people playing badminton are adults.
Twice as many children play tennis than adults.

How many children play tennis?

.....
(2)

12. There are 40 boys and girls at a youth club.

There are 23 girls.

9 girls play rounders.

4 boys do not play rounders.

How many boys play rounders at the youth club?

.....
