

Work out  $13 \times 9$

Find  $x$

Put the numbers in order, starting with the lowest.

172 217 72 198 273

3 -8 5 -4 1

Complete the table

Fraction	Decimal	Percentage
$\frac{1}{2}$	0.5	
	0.75	75%
$\frac{2}{5}$		40%

Paul has £10 to buy rulers at 60p each.

What change should he get if he buys as many as possible?
