

A primary school has 212 students.
50% of the students are boys.

How many of the students are boys?

A pie is cut into 6 equal slices.
Two slices are eaten.

What fraction of the pie is left?

Find the size of y

Nishat is running in a 5 kilometres
race.

He has run 80 metres.

How much further, in metres, must he
run?

James says that all numbers have an
even number of factors.

Is he correct?
