

Work out $\sqrt{49}$

Work out 4^3

Alex selects a cube from a bag containing 7 red, 1 green and 5 white cubes.

What is the probability she picks a white cube?

What is the probability she picks a red or white cube?

Simplify $5 \times 4y$

Simplify $4x + 5x + 2y + 6y$

Work out $\frac{1}{3} + \frac{2}{7}$

Work out $\frac{4}{7} - \frac{1}{3}$

Jenny has these shapes

Zinah gives Jenny more circles and rectangles so she has a total of 15 shapes.

The probability of a circle is now $\frac{1}{3}$
How many rectangles was she given?
